

The Multi-State Sexual Offender / Predator Search contains felony conviction records compiled from sex offender registries in 42 states. Most states in this database provide quarterly updates or report only the most serious violent or sexual offenders. Therefore, further investigation via a Statewide Criminal History Search or County Criminal Record Search is strongly recommended.

The Roberts & Roberts Group strongly recommends that any positive result (“Hit”) from this database be confirmed prior to taking “adverse action” as defined by the Fair Credit Reporting Act (FCRA).
